Course Objectives:

- Understand the concepts of word processing and learn how to start and exit Microsoft Word, open, save, and close documents.
- Insert and delete text to edit a document and print the document and select different views.
- Change paragraph alignment, and move, copy, and replace text in a document.
- Enhance text appearance by changing character and paragraph formatting, and using Quick Styles.
- Use tab stops, change indents, apply bullets and numbering, and change line spacing to enhance document appearance.
- Use margins, page breaks, and headers and footers to enhance the page layout.
- Simplify proofreading of documents by checking spelling, enhance productivity by using AutoCorrect and AutoText, and streamline document creation by using templates.

This course is for students who want to gain the necessary skills to create, edit, format, and print basic Microsoft Office Word documents.
