Course Objectives:

- Create and modify tables to organize data and enhance appearance.
- Use the Mail Merge task pane with different data sources and main documents to create form letters, envelopes, and mailing labels.
- Use styles to create consistently formatted documents and to facilitate changing paragraph and character formatting.
- Create and insert Quick Parts to reuse data and content and create documents with consistent standards.
- Use existing templates to provide consistent document editing and formatting, and create custom form templates.

This course is for students who want to enhance their skills working with Microsoft Office Word documents.
